Education

Batangas State University - TNEU

Bachelor of Science in Information Technology

Major in Business Analytics

Aug 2019 – Aug 2023

Golden Country Homes, Alangilan, Batangas City

Work Experience

BatStateU - Digital Transformation Center

Feb 2023 – May 2023

Frontend Developer Intern

Onsite

- Designed and developed mockups and user interfaces for a **Mobile Application Project** using **Figma** and **React Native**.
- Led the design and development of the **Web Application's** frontend user interface, utilizing **Figma** for design, and employing **HTML5, CSS, and JavaScript** for implementation.
- Contributed to the development of backend service for **Web Application Project** using **PHP** and **MySQL**.

Freelance Software Developer

Oct 2023 – Present

Software Developer

Remote

- Implemented a multi-faceted frontend user interface for a **Web Application Project** utilizing a modern tech stack including **React, NextJs, Tailwind, and Redux Toolkit** to create distinct interfaces for various functionalities.
- Constructed a robust backend for a **Web Application Project** leveraging **Node.js, Express.js, MongoDB, MySQL, PostgreSQL** and a **RESTful API** for efficient data management and interaction.
- Developed a mobile application project utilizing **React Native** for the frontend, while integrating **Appwrite (Backend-as-a-Service)** to implement the backend infrastructure.
- Implemented a secure user authentication system employing **Access and Refresh Token** for enhanced security and user experience.
- Leveraged **Postman** to automate API testing and ensure the application's functionality aligns with intended behavior.

Personal Projects

Web Portfolio | Website | Source Code

ReactJS | Tailwind | Vite | Vercel

- * Crafted a dynamic and interactive personal portfolio website to showcase my expertise and experience. This project utilized a modern technology stack including **ReactJS, Tailwind CSS, and Framer Motion** for a seamless user experience.
- * The website was bootstrapped with **Vite** and deployed on **Vercel** for efficient development and hosting.

Metamorphose.ai | Website | Source Code

ReactJS | Tailwind | Shadcn | NextJs 14 | NodeJs | Cloudinary

- * A sophisticated Software-as-a-Service (SaaS) application featuring advanced image manipulation capabilities such as **Photo Restoration, Object Removal, Recoloring, and Generative Fill**, leveraging the **Cloudinary API**.
- * The website was bootstrapped with **TypeScript** and **Next.js 14** alongside **Node.js**, employing a **Server-Side Driven** approach with **Server Actions**. It utilizes a **MongoDB** database and is deployed on **Vercel** for efficient development and hosting. The site is styled using a combination of **Tailwind CSS** and **Shadcn UI**, with forms managed using **React Hook Form** and **Zod**.
- * The website also includes **Online Payment Functionality** through **Stripe** and a comprehensive **Authentication System** using **Clerk** and **Webhooks**.

Trainings and Certificates

Software Engineering Training | Certificates

DICT

- * Completed a **Basic to Advance Software Engineering** course from DICT Training program.

Cloud Computing Training | Certificates

DICT

- Completed a **Basic Cloud Computing** course from DICT Training program.

Technical Skills

Languages: JavaScript, SQL, HTML5, CSS, PHP, Python, TypeScript

Developer Tools: Postman, Git, VSCode, PyCharm, Eclipse, Figma

Libraries/Frameworks: ReactJS, React Native, NextJs 14, Express, NodeJs, FastAPI (Pyhton), Redux, Zustand, Tanstack React Query, Tailwind, Bootstrap, Sass

Database: MySQL, MongoDB, PostgreSQL

ORM: Mongoose, Sequelize, Prisma

Other: MS Word, Powerpoint, Excel, Internet, Photoshop
